

WANTED: Northern Map Turtle Sightings

Northern Map Turtles are a **Species-at-Risk** in Ontario and need our help!

Habitat: Large lakes and rivers with good water quality, similar to Lake Panache

Diet: Strong jaws allow Northern Map Turtles to specialize on eating Snails, Clams, and Crayfish.

Threats: Road Mortalities, Boat Propeller Strikes, Habitat Loss, and Water Pollution.

Cool facts: The lines on their shell resemble a map!

Females are 2x the size of males!!!

Putting the "map" in Northern Map Turtle

Adult Male

Adult Female

How you can help protect Northern Map Turtles

Northern Map Turtles have been reported in Lake Panache, but we have no confirmed observations (pictures!)

Please report all sightings to
